

## Ominous

Evergrey

The fire's gone and I'm still paying  
I go on, I travel on  
When I'm alone the heat is ominous

We ran all our lives  
I ran all my life  
A lonely run, nobody missed us  
I hide!  
My hideout was torn down coldly (Help me!)  
Needed help, the fire spread (Help me!)

And at night's when darkness was closer  
Just needed one of you to say out loud  
That we all could come

The fire's gone but I'm still burning  
Life is long I'll travel on  
When I'm alone the heat is ominous

I will go on  
My fire's still burning  
To see new dawns  
I'll carry on  
I must believe  
This heat will clear for me  
And that the smoke will scatter

The fire's gone but I'm still burning  
Life is long I'll carry on  
When I'm alone the heat is ominous  
The fire's gone but I'm still burning  
Life is long I travel on  
When I'm alone the heat is ominous
