

# Save Us

Evergrey

We were out of control  
We got lost when we stopped to feel  
Our inside's bleeding fear  
Save us  
Fell in love with a story  
But its words were never about us  
Now we're drowning in trenches  
That we've been digging for ages

Hey! Save us!  
Hey! Save us!

'Cause we are wrong to feel  
Like our hearts have all the time we need  
Save us  
We must go on and dream  
Save us  
Save us

We've lost all control  
Fallen in holes  
Our hearts forged in the darkness  
And in the cold to fit the molds we are chasing  
And these worlds we're creating  
We fell in love with a story  
But its chapters were never about us  
We lost our identity traces  
And all we fought for is wasted

'Cause we are wrong to feel  
Like our hearts have all the time we need  
Save us  
We must go on and dream  
Save us  
Save us

Save us, yeah

Hey! Save us!  
Hey! Save us!

'Cause we are wrong to feel  
Like our hearts have all the time we need  
Save us  
We must go on and dream  
Save us  
Save us

'Cause we all long to feel  
We have all the time we need  
Save us  
We must go on and dream  
Save us  
Save us
