

Welcome to my day  
Just another day losing my mind  
It's always something else  
Every little thing, all the little things  
Keeping my heart from losing itself

I don't know what to thing  
I don't know what to say  
No one said that life was fair

I feel crazy lately  
Everybody tells me nothing I do is right  
I feel crazy lately  
I believe it's making me feel so alive

If I'm feeling off  
Just I little off  
It's better than on if on is feeling numb  
Cause every part of life  
Every little part  
Can show me the joy in not having enough

No matter what I say  
I will be okay  
We're all a little bit insane

I feel crazy lately  
Everybody tells me nothing I do is right  
I feel crazy lately  
I believe it's making me feel so alive

Look around, slow it down  
I need to live in this moment  
Slow it down, look around  
See what it means to be alive  
Alive

I feel crazy lately  
Everybody tells me nothing I do is right (nothing I do is right)  
I feel crazy lately  
I believe it's making me feel so alive (so alive)  
I feel crazy lately  
Everybody hates me nothing I do is right  
I feel crazy lately  
I believe it's making me feel so alive
