

# Go Figure

Everlife

Whoa, whoa

Just when you learned the game of life  
All the rules change overnight  
Whoa, whoa go figure

It seems so wrong to even try  
But taking a chance never felt so right  
Whoa, whoa go figure

You have a dream  
You wanna be  
The center of the story  
Just when you think it's gone  
You find a way to keep it going on

Sometimes you fall before you fly  
Sometimes you laugh when you should cry  
Go figure  
When things got messed up  
You wanted to give up  
Nothing seemed right but turned out fine  
Go figure, go figure  
Whoa, whoa

It's so dangerous to play it safe  
You get what you want by giving it away  
Whoa, whoa go figure  
Go figure

Your trying so hard to be someone else  
When all you needed to be was yourself  
Whoa, whoa go figure  
Yeah, yeah, yeah

Not everything is what it seems  
There's never just one meaning  
When life starts making sense  
The world is upside down again

Sometimes you fall before you fly  
Sometimes you laugh when you should cry  
Go figure, go figure  
When things got messed up  
You wanted to give up  
Nothing seemed right but turned out fine  
Go figure, go figure

Whoa, whoa, go figure  
Whoa, whoa

Did you really think your destiny was a one way street  
You gotta be ready for anything  
Just set your whole life free, yeah

Sometimes you fall before you fly  
Sometimes you laugh when you should cry

Go figure, go figure  
When things got messed up  
You wanted to give up  
Nothing seemed right but turned out fine  
Go figure, go figure

Sometimes you fall before you fly  
Sometimes you laugh when you should cry  
Go figure  
When things got messed up  
You wanted to give up  
Nothing seemed right but turned out fine yeah, yeah  
Go figure, go figure

Whoa, whoa go figure  
Whoa, whoa go figure
