

# Love in Rhythm

Everlife

I'm always living on the edge of the beat but I  
I really love the way you slow me down to find  
That our hearts are on fire as they beat in motion.

Let's chase a dream together and we'll share the world  
I wanna keep you until the end of forever and more.  
Won't you say, won't you promise me we'll stay in motion?

(Gotta live our love in rhythm. Gotta live our love in rhythm.)

You light me up, always enough.  
Gotta live our love in rhythm. Gotta live our love in rhythm.  
We can't deny this feels so right.  
Gotta live our love in rhythm. Gotta live our love in rhythm.

Gotta live our love in rhythm. Gotta live our love in rhythm.  
Gotta live our love in rhythm. Our love, our love.

Paint a picture of forever with you and me  
Show me colors that I have never seen  
With our hearts on fire as they beat in motion.

Gotta live our love in rhythm. Gotta live our love in rhythm.

You light me up, always enough.  
Gotta live our love in rhythm. Gotta live our love in rhythm.  
We can't deny this feels so right.  
Gotta live our love in rhythm. Gotta live our love in rhythm.

Gotta live our love in rhythm. Gotta live our love in rhythm.  
Gotta live our love in rhythm. Our love, our love.

You're the reason, you're the why, yeah, you bring me to life  
Like the sun, like the moon, we light up the sky  
With our hearts on fire, we beat in motion.

You light me up.  
Gotta live our love in rhythm. Gotta live our love in rhythm.  
We can't deny this feels so right.

You light me up, always enough.  
Gotta live our love in rhythm. Gotta live our love in rhythm.  
We can't deny this feels so right.  
Gotta live our love in rhythm. Gotta live our love in rhythm.

Gotta live our love in rhythm. Gotta live our love in rhythm.  
Gotta live our love in rhythm. Our love, our love.

Our love, our love.  
Our love, our love.
