

Chemical Miracle / Faster

Evermore

Physical, mathematical, cynical, political,
spiritual, ritual, chemical, miracle...

My friends, how do you feel?

"Feeling all right"

Well you could always feel a little bit better.

Do you feel a little dizzy?

"Yes, a little dizzy"

Do you feel a little tired?

"Yes, a little tired"

This'll make you feel better,
really feel better tonight.

It's called Truthogen,

"they call it Truthogen"

It's called Truthogen,
and it's your new best friend.

Tonight, I know where I should go,
as it all becomes so slow...

Tell me, where did you go?

you said, "Life just seemed too slow."

Distant voices telling me to go... Faster.

Just a little faster, just a little faster,
just a little faster, just a little faster...

And the faster I go, never, never, never
seemed so slow. And the faster I go,
never seemed, never seemed so slow,
never seemed so slow...

Everything I've ever seen,

and all the place I have been.

Flashing back like images on screen.
