

# This Christmas

Every Avenue

Count the days like snowflakes  
Falling to the ground  
I think about the past year  
And where did I go wrong?

I can't believe this Christmas eve  
That this year's almost gone  
'Cause we both know tomorrow  
Is gonna kill us all

So let's move a little bit closer  
Talk a little bit softer  
I've only got December  
'Til this is gone

This Christmas I'm worried to death  
So bring me some good news  
'Cause it's all I've got left  
This Christmas I'm worried to death  
So bring me some good news  
'Cause it's all I've got left

My new years resolution is to turn my life around  
Start taking chances and get out of this town

So let's move a little bit closer  
Talk a little bit softer  
I've only got December  
'Til this is gone

This Christmas I'm worried to death  
So bring me some good news  
'Cause it's all I've got left  
This Christmas I'm worried to death  
So bring me some good news  
'Cause it's all I've got left

So let's move a little bit closer  
Talk a little bit softer  
I've only got December  
'Til this is gone

This Christmas I'm worried to death

This Christmas I'm worried to death  
So bring me some good news  
'Cause it's all I've got left  
This Christmas I'm worried to death  
So bring me some good news  
'Cause it's all I've got left  
This Christmas I'm worried to death  
So bring me some good news  
'Cause it's all I've got left

This Christmas
