

White Void

Every Time I Die

I got what I came for afterlives ago, but the fire kept me below

You get what you pay for, trade it all for gold
We run back into the cold

I could change if you'd like, but I think you'd like nothing better

Hope is wasting our time when the waiting goes on forever

I got what I came for afterlives ago
But the fire kept me below

When the warmth disappears, the end just goes on forever
We don't have to stay here, we don't have to live like this
Where the battles rage on like the weather

No one's allowed
No one's allowed
No one's allowed to love what's left of us burnouts
Burnouts

Bodies that carve no space, frozen in a fantasy
One without end, one without end

By the time we saw the sun, it had set
By the time I saw the light, I was dead
By the time we saw the sun, it had set
By the time I saw the light, I was dead

We're all dead

You sing into the white abyss
The white abyss sings back to you
You're gonna miss me when I'm here
Go ahead and miss me

I got what I came for afterlives ago, but the fire kept me below

You get what you pay for, trade it all for gold
We run back into the cold

I could change if you'd like
Though I think we like suffering better
