

Come Around

Everyday Sunday

Don't hang up
Cause I've got some things to say
You can't stay in this forever
Living for your yesterday
You know that I told you
I've always been for you
Stop and think about it
Don't hang up
You don't need to be alone
I only wanna be there for you

Come around this time
I don't wanna be the last to know
Come around this time
I don't wanna be the last to know

How you feel
You don't have to keep it in
Don't let this world defeat you
You gotta learn to live again
You know that I told you
I'm never gonna judge you
Remember I'm on your side
So don't give up
You're never on your own
I'm always gonna be there for you

Come around this time
I don't wanna be the last to know
Come around this time
I don't wanna be the last
To find you sitting on the edge
I don't wanna be the last
To find you walking on the ledge
I don't wanna be the last to know

What you've been doing
When you've been hurting
Don't be an island
Waiting for the tide to wash away
I only wanna be there for you
