

Relentless

Everyone Dies In Utah

Let's go back to the start
We never had a clue
What we got ourselves into
Few more years go by
As I start to realize
That there is more to this
Is it real or just a game
Driven by passion or a call to fame
When faced with reality
Can I give them all of me
I hear them call my name
I can feel their pain

We're gonna give it all we have till it's over
You never know what you got until it's over
With no end in sight
We're gonna make things right

If only you could look into their eyes and see
That this is everything

And the world is what this is to me
Don't let go
Just don't let go
We're gonna give it all we have till it's over
You never know what you got until it's over
With no end in sight
We're gonna make things right

I won't let my conscience defy me
I see that fire is rising
I won't let my conscience defy me
I see that fire is rising
I see it rising

We're gonna give it all we have till it's over
You never know what you got until it's over
With no end in sight
We're gonna make things right
