

Before Today

Everything But the Girl

I don't want excuses
I don't want your smiles
I don't want to feel like
We're apart a thousand miles

And I don't want your attitude
I don't want your things
And I don't want a phone that never rings
I want your love and I want it now
I want your love and I want it now

I don't want your history
I don't want that stuff
I want you to shut your mouth
That would be enough

I don't care if you've been here before
You don't understand
Tonight I feel above the law, I'm coming into land
I want your love and I want it now
I want your love and I want it now

My heart is that much harder, now
That's what I thought before today
My heart is that much harder, now
And I thought that it would stay that way
Before today, before today

I don't want a phone that never rings
I want your love, I don't want your history

My heart is that much harder, now
That's what I thought before today
My heart is that much harder, now
And I thought that it would stay that way
Before today, before today

I don't want a phone that never rings
I want your love, I want your love
