

# A Fever Dream

Everything Everything

I hate the neighbours  
They hate me too  
The fear and the fury  
Make me feel good  
So don't have a meltdown  
It's only a dream  
How did we get here  
And how do we leave

Lord I see a fever dream before me now  
Lord I see a fever dream before me now  
Lord I see a fever dream before me now  
Lord I see a fever dream before me now  
Lord I see a fever dream before me now  
Lord I see a fever dream before me now  
Lord I see a fever dream before me now  
Lord I see a fever dream before me now

Be honest  
You want it  
Be honest  
You want it

Lord I see a fever dream before me now  
Lord I see a fever dream before me now  
Lord I see a fever dream before me now  
Lord I see a fever dream before me now  
Lord I see a fever dream before me now  
Lord I see a fever dream before me now  
Lord I see a fever dream before me now  
Lord I see a fever dream before me now

Be honest  
You want it  
Be honest  
You want it

Lord I see a fever dream before me now

Lord I see a see a  
Lord I see a see a dream before me now  
Lord I see a see a  
Lord I see a see a dream before me now  
Now I see a see a dream before me now  
Now I see a fever dream before me now  
Lord I see a see a dream before now  
Lord I see a fever dream before me now

Lord I see a fever dream before me now  
Lord I see a fever dream before me now  
Lord I see a fever dream before me now  
Lord I see a fever dream before me now  
Lord I see a fever dream before me now  
Lord I see a fever dream before me now  
Lord I see a fever dream before me now  
Lord I see a fever dream before me now
