

Black Hyena

Everything Everything

An eyelid starting to twitch
We chased it over the cliff
The alligator is as dead as your remote control
But I will need it for this

Black hyena gonna bite the idiot
Black hyena gonna bite the idiot

Caught in the twist of delight
Between this world and the light
The bones snap into place
You saw the face, you saw the face
I made the gravity mine

Black hyena gonna bite the idiot
Black hyena gonna bite the idiot

At last! Hello, Re-animator
Hello, Re-animator

I pray to start it tonight
A moron carcass arrives
On a banana peel he slips and breaks his brain in two
The master cracks into life

Black hyena gonna bite the idiot
Black hyena gonna bite the idiot

At last! Hello, Re-animator
Hello, Re-animator
Hello, Re-animator
Hello, Re-animator

At last! Hello, Re-animator
Hello, Re-animator
At last! Hello, Re-animator
Hello, Re-animator
