Everything Everything

Playstation One
Last of the binbag
There was nothing on our shoulders, nothing on our shoulders, y
eah
And it came from the sky to kill all the dinos
So I told my friend about it, told my friend about it, told my
friend about it

He said, "You've got it all"
I said "Oh? Lucky me"
Oh, lucky me
Born under a meteor

Then all the birds fell
They were blinded and burned, they were blinded and burned, the
y were blinded and burned
I couldn't walk yet
But if I could help it
Then I'd put my arms around you, put myself between you, put my
self above you

He said, "You've got it all"
I said "Oh? Lucky me"
Oh, lucky me
Born under a meteor

Lucky me
Oh, lucky me
Born under a meteor
