

## Crisis Over

### Everything Everything

It's crisis over  
But wait a second what if I forget my code, ah  
It's crisis over  
But wait a second what if I forget my name, ah

If you're innocent  
I congratulate you  
Never seen the finger that I know I say but  
Tape your hot key red  
Ah it's pixelated  
What if there's a thing you wish to hang around it  
Use them all, swipe your card

All of the things that you love  
Were lost when your hard drive was burst

It's crisis over  
But hang on brother what if all the lights go out, ah  
Crisis over  
But what would happen then if I shut down too much, ah

If you're innocent  
I congratulate you  
Never seen the finger that I know I say but  
Tape your hot key red  
Ah it's pixelated  
What if there's a thing you wish to hang around it  
Use them all, swipe your card

All of the things that you love  
Were lost when your hard drive was burst  
All of the love for your child  
Will end up in folders and files

And I declare myself a God, cut off my head, so
