

Even The Dogs

Everything Everything

I don't need direction
I need somewhere to pause
Cast down by physical laws
No need for animal gauze
And you lose life forever
'Less your temperature turns
'Less your gallbladder burns
[?] lifeless in furs
And maybe you'd prefer to be a carpet or a pigment
Or bred for the holy Pritt Stick in your ligaments
I try so hard to reach my mangled début
My lifeform lies straight or true [?]
I watch the angles accrue

'Cause even the dogs
Even the dogs taught me [?]
Of someone perishing alone
Even the dogs were deforming
And so all pilots are go
I made mistakes
I lost an author, ooh, and then I lost a daughter's awe
I don't know how you'd affect it more
Even the dogs, the dogs
Even the dogs, even the dogs

So maybe out of water
I'd be easy to swim
I am a murderous whim
I have been transformed again
And everything was laid out for me
Right from the start
That was living life at every part
That was studying the clock of your heart
And I was having breakfast with epiphany's mirage
But burglarising every transpirage
Slipped through my fingers on my holy descent
So I guess my loyalty ran
But with every certainty spent

'Cause even the dogs
Even the dogs taught me [?]
Of someone perishing alone
Even the dogs voted for me
I'm so political
I made mistakes
I lost an author, ooh, and then I lost a daughter's awe
I don't know how you'd affect it more

I'm calm and I'm proper I'm properly calm
I can feel this place
I can feel this earth swallowing me
Drop what I could and I fail every time
And I can feel the sea, I can feel the sea
Lapping at me olive-
Branches for your doubt
And I know it's causing drama like I turn on the tap and walk out
Lord, I wanna sleep tonight!

'Cause even the dogs
Even the dogs taught me [?]
Of someone perishing alone
Even the dogs voted for me
I'm so political
I made mistakes
I lost an author, ooh, and then I lost a daughter's awe
I don't know how you'd affect it more
Even the dogs, mm, the dogs
Even the dogs, even the dogs

I'm coming a cropper I'm properly done
I tried what I could and I fail every time
I'm coming a cropper I'm properly done
