

# Mercury & Me

## Everything Everything

Are you gonna be okay, babe?  
I wanna be beside you but I think that it will hurt you  
And I don't regret my life with you  
And they tell us that we're over  
But I don't think we're over and you know I like pretending

So no matter what they say  
I'm not giving in  
I destroy the things I have  
And I lie to myself  
A destroyer of the mind  
I don't care

But we let it go on  
We let it go on  
We let it go on  
We let it go on

I don't know which way to turn now  
I don't think I'm ever gonna be a real person  
It's just Mercury and me  
We're in love  
And they tell us that we're over  
But I don't think we're over and you know I like pretending

So no matter what they say  
I'm not giving in  
I destroy the things I have  
And I lie to myself  
A destroyer of the mind  
I don't care

But we let it go on  
We let it go on  
We let it go on  
We let it go on

(Don't listen) We let it go on  
(Glass heaven) We let it go on  
(Old magic) We let it go on  
(Forever) We let it go on  
(Red wild for you) We let it go on  
(Don't listen) We let it go on  
(Glass heaven) We let it go on  
(Old magic) We let it go on  
(Forever) We let it go on  
(Red wild for you) We let it go on  
(Don't listen) We let it go on  
(Glass heaven) We let it go on  
(Forever)
