They run intervention
Jahova walked on water, Grandma raised herself a pension
Mama working extra, Papa he no even make the effort
Except for when he walled away and left us
Now I'm taller with my head up
I can stand on my own two now
But you say I carry, make my leg hurt
I hope my dragging ain't too loud
My face will tell you that I'm fed up
Tried to move but I cannot
Dried throat ashy knees and elbows
Hair grainy feet blistered from
Walking these hell roads just so you know (so you know)

These weeks are growing for me
I don't think about it I just hope they work
My faith will carry me this I know
My faith will carry me this I know

(Carry)
Carry my weight
(Carry)
Carry my weight
(Carry)
Carry me

Like mama did

(Carry)

Carry
Carry
Carry me

Just living chasing a wage slip
I'm a man now, init
Same shit just today's shit
I'm a man now, init

At least I kept my mind on my vision
I see me how they didn't
Either use the doubts as my pivot or drown with it
So I turned all my demons into a sound spitting image
Of a now spitting image of my faith
Solitude and prayer it's so quiet when I'm here
I tell you when your down man don't nobody care
Watch them jump ship when your finally up in the air

These weeks are growing for me
I don't think about it I just hope they work
My faith will carry me this I know
My faith will carry me this I know

(Carry)
Carry my weight
