

## Best Light

Eves Karydas

You're my hero  
The bigger person  
You stay calm like the wind  
Blowing through the curtains  
And when I feel blank  
Like a piece of paper  
You come and colour me in  
It's in your nature

You take my boring day and give it new meaning  
Your arms around me is the perfect feeling  
Something inside that only you end up healing

I do, I do  
Got nothing but love for you  
It's true, yeah you  
Love me at my worst  
And now I'm standing in your sunshine  
Bringing out my best side  
You put me in the best light  
(Ooh ooh ooh)

We go driving  
Round the east side  
Diving into the deep  
And it feels right  
No second guessing  
Cards on the table  
Here you are by my side  
Willing and able

You take my boring day and give it new meaning  
Your arms around me is the perfect feeling  
Something inside that only you end up healing

I do, I do  
Got nothing but love for you  
It's true, yeah you  
Love me at my worst  
And now I'm standing in your sunshine  
Bringing out my best side  
You put me in the best light  
(Ooh ooh ooh)

I do, I do  
Got nothing but love for you  
It's true, yeah you  
Love me at my worst  
And now I'm standing in your sunshine  
Bringing out my best side  
You put me in the best light
