

Complicated

Eves Karydas

Always thought when I sleep
Was meant to be peaceful
But my blood's been running

My teeth fall out in my dreams
Don't know what it means now
But it must mean something

Wish I was in love, wish I was alone
Never wanna work, wish I wasn't broke
Wish I had a clue, had it figured it out
But I really don't
So tell me

When did everything here get so fucking complicated?
Used to laugh at nothing, don't know how I got this jaded
Thought it was fine
Thought we had time
But we feel dated
When did everything here get so fucking complicated?

Always thought when I'm older
I'll be done waiting for my life to happen

My grandfather was a soldier
But all that I know is that I don't know nothing

Wanted thicker skin, wanted tougher bones
Wanna be away, wish I was at home
Wish I had a clue had it figured out
But I really don't
Again?
Yeah

Wish I was in love, wish I was alone
Never wanna work, wish I wasn't broke
Wish I had a clue, had it figured it out
But I really don't
So tell me

When did everything here get so fucking complicated?
Used to laugh at nothing, don't know how I got this jaded
Thought it was fine
Thought we had time
But we feel dated
When did everything here get so fucking complicated?
When did everything here get so fucking complicated?
When did everything here get so fucking complicated?

I never asked for this not once
Bring me back to the basics
Speeding up and I'm barely holding on
Bring me back to the basics, to the start
So tell me

When did everything here get so fucking complicated?
Used to laugh at nothing, don't know how I got this jaded
Thought it was fine

Thought we had time
But we feel dated
When did everything here get so fucking complicated?

So, tell me
When did everything here get so fucking complicated?
Used to laugh at nothing, don't know how I got this jaded
Thought it was fine
Thought we had time
But we feel dated
When did everything here get so fucking complicated?

When did everything here get so fucking complicated?
When did everything here get so fucking complicated?
