

# Further Than The Planes Fly

Eves Karydas

Shoot, shoot, shoot  
You have what I need  
Put me in a rocket, send me into the sky  
Further than the planes fly (planes fly)  
Shoot, shoot, shoot  
You are all I need  
(All I need)

When we're being ourselves  
I forget who we know  
We're more than just for show  
And we hide from the party  
Shiver with cold  
I shiver 'cause I'm so, so, so thrown

Shoot, shoot, shoot  
You have what I need  
Put me in a rocket, send me into the sky  
Further than the planes fly (planes fly)  
Shoot, shoot, shoot  
You are all I need  
(All I need)

But, when my fingers creep forward  
To touch you for the first time  
Well, I don't care who knows  
I'll reassess my friendships  
I'll let the fake ones go  
So it's just us when we're, we're, we're, we're alone

Shoot, shoot, shoot  
I'm so bored of all the talking  
Put me in a rocket, send me into the sky  
Further than the planes fly (planes fly)  
Shoot, shoot, shoot  
You are all I need  
(All I need)  
All I need

Shoot, shoot, shoot  
I'm so bored of all the talking  
Put me in a rocket, send me into the sky  
Further than the planes fly (planes fly)  
Shoot, shoot, shoot  
You are all I need  
(All I need)  
All I need  
(All I need)
