

Get Me So High

Eves Karydas

I got big emotions and they're taking up a lot of time
It's really eating into all the things I should prioritise
Never been impatient but I'm shaking for another high
Now, I only care about your plans
And I couldn't give a shit 'bout mine

Holding it in, but there's no way to resist it
With your hands on my skin, I give in

Here you go again, giving me drugs for free
Couldn't buy this high with money so I'm always on the edge
Trembling when you leave
Scary just how much I want you and you get me so

High, high
'Til I'm down, all the way down
High, high
'Til I'm down, all the way

Can't seem to catch a break, my expectations have been running wild
(Ah, ah)
And I feel gross and creepy when I'm needy and you don't reply
(Ah, ah)

Fly across the world just to get another inch of you
Hit to the nerves 'til I'm blue

Here you go again, giving me drugs for free
Couldn't buy this high with money so I'm always on the edge
Trembling when you leave
Scary just how much I want you and you get me so

High (high) high
'Til I'm down, all the way down
High, high
'Til I'm down, all the way

Down, gotta pick myself up
Down, gotta get myself together
Down, gotta pick myself up
Down, gotta get myself together

Here you go again, giving me drugs for free
Couldn't buy this high with money so I'm always on the edge
Trembling when you leave
Scary just how much I want you and you get me so

High, high
'Til I'm down, all the way down
(High) high, high
'Til I'm down, all the way
