

## Define Success

### Evidence

Saying what I don't like, black sheep of the family  
Standing in the strobe light, handing off sanity  
I used to tag Vane, but wasn't about vanity  
Shady city, sitting under sun without a canopy  
Under the gun, don't know what plan is b  
Take my shot, didn't see me shooting shit up candidly  
Take my spot? Only quit it if I'm playing randomly  
Make a plot, never didn't kill it, still a fan of me  
Myself and I are still impressive  
A decent character, the judge that fell for lesser  
Mistakes happen twice, then you cut it with the pressure  
Depression, if you ain't wrapping present in the session  
Silence is better than never stutter  
My timing is better than any other to shoot the cover  
I copped a record and another and another  
Running through the budget with my brother
