

Delay The Issue

Evidence

Time
That's a freedom when it comes to mind
The only things that come free are what I've come to find
What I see
I don't believe to me is undefined
If I don't trust my first two
Know my third ain't blind
If I don't trust my third
There's an issue
I put the message out
Clear as day
The shit still didn't hit you
"Life Is Too Short" to "Blow The Whistle"
If they shooting at your head
What's a vest to a loaded pistol?
I make official every moment
Like I'm known for zoning
And anything I'm not known for
I'm known for owning
I get inspired by my friends
Never known for cloning
Only known for growing
Omen
Nothing I ain't sewing up if you point me at it
"Welcome Back Home" and "What You See Is What You Get" from the Dramatics
My life is beautiful and truly tragic
I took my hat off so I could pull a rabbit out and do my magic
There you have it

Never now, it's always later with you
Delay the issue

Circulate like the Sunday paper
This the money maker, we can lay up like lakers
And scale acres on the purest caper
Never now, it's always later with you
Delay the issue make official calls blowing whistles
At this foul shit the way the game was played
Never seen a day without a spliff to face
Float away from this chaotic shit I been bothered with
I copped the Lyft, the least you can do is stop acting modest bitch
You new to this, I gave you my heart before I learned to use the shit
Transform to the next form with a foreign mom
New world, I guess it's Babylon
I could really be a figment, you don't need to tag along
Niggas don't be lasting long
Not as long as they songs
It's sad God, all I need is another 24 to get us through the door
Channel spirits when I need more
Running back and forth to these bitches like a I need yours
I ain't chilling, I been hungry since before

Never now, it's always later with you
Never now, it's always later with you
Delay the issue, never now, it's always later with you
