

# For Whatever It's Worth

Evidence

Yeah  
It's in your pocket  
EV  
Let it ride out for a sec  
I'ma speak my peace  
Some focus on what I do heavily  
Others have no idea  
I keep doin it man  
Don't stop  
I got love  
Even I got some doubts some times man  
I'ma let you in

Just knowing that you know who I am is enough  
What if we meet up and I don't even have the right touch?  
That's the reason the number posted up ain't called  
I be beat up so I just paint a picture - call  
Perfect where I don't try new shit, nothin's hurtin  
No pain comes and goes, nothing's workin  
No highs, no lows, different days might be round the corner  
Still no expression, no sign on my face shows  
Those that pay close attention might sense it  
Whatever it's worth I make sense but still fenced in  
Sent in by the man upstairs destined  
The message is so great you start wrestling  
With thoughts of failure, maybe I can barely float  
With these sharks surroundin the boat  
But then the hope comes, it's like the light cut through the clouds  
Girls cutting em down, rappers buckin em down  
There's nothing I found, my first for better or worse  
I ain't tryin to boast, just whatever it's worth  
I'm the next one up to bat to bring it home  
I'm the popular vote, it's medicine from the earth

For whatever it's worth  
Yeah, whatever's it's worth  
Staying on my grind  
24/7/365  
Regardless of what they say, man

For whatever it's worth  
Family's first  
I'm gonna stick to what I stick to  
Let them talk, say what they wanna say

I'mma have the last laugh in the end, always remember  
For whatever it's worth

Sense a change, I stay alert these days  
Never settling, it's better than peddlin work  
I'm so invested, the rest is up to him  
Unless destiny gonna test it first  
Bills make themselves, honest though it hurts  
I used to love her till the condom broke  
And what's worse is your first love never goes away  
When you're first on a different page  
I'm first to say, I'm first to stay dilated

Whether size of the purse or the stage that I'm takin  
Money don't grow on trees but when it come it fall like leaves  
I'mma have my rake out, I'mma chip up and cake out, mash out  
For whatever it's worth, I'mma chip up and cash out  
I bang with the best and not with a vest on  
Ain't who you guessed, underestimated, slept on  
Without me, no case to rest on  
I don't give orders, I make suggestions  
A brand to trust, I place bets on

For whatever it's worth  
Yeah, whatever's it's worth  
Staying on my grind  
24/7/365  
Regardless of what they say, man

For whatever it's worth  
Family's first  
I'm gonna stick to what I stick to  
Let them talk, say what they wanna say

I'mma have the last laugh in the end, always remember  
For whatever it's worth

Duck season 3

I got worldwide family all over the earth  
And I worry about em all, you know what I'm sayin  
For whatever its worth

For whatever it's worth
