

## Rain Drops

**Evidence**

Rain drops fallin' on my window... sill... sill... sill  
Rain drops fallin' on my window... still... still... still  
Rain drops fallin' on my window

The memories fall  
Cats and Dogs-memories, y'all  
Fallin' down the pen or recall  
Rain drops fallin' down my head like a flashback  
Guns in the rose, Axl and Slash back  
Wet checks, BMI's, ASCAP's  
My rainy day money and made it past that  
Another day to push 'cause the night is long  
And went to writer's block just to write a song  
To left right but don't right a wrong  
I can see clearly now the rain is here  
The pain is here, and I stayed sincere  
All to say it's the work in a day  
And I'm all in my words that I word in a way

When the rain drops fallin' on my window... sill... sill... sil  
l  
Rain drops fallin' on my window... still... still... still  
Rain drops fallin' on my window

We could call it water under bridges  
Or we could not, it's all in one decision  
See the pyramids or see the prison  
Keys open doors but the doors are off the hinges  
How many got a friend that ain't suspicious?  
Heard before Nas that it was written  
Got a lot but got a lot of livin'  
This the last call, it's passin' the bar  
Thinkin' 'bout the past as I pass in my car  
All to say it's the work in a day  
And I'm all in my words that I word in a way

When the rain drops fallin' on my window... sill... sill... sil  
l  
Rain drops fallin' on my window... still... still... still  
Rain drops fallin' on my window... sill
