

## Where We Going From Here...

### Evidence

Nothing's fun for self  
So I only call my homies when I don't need help  
Since a kid I never won't be felt  
Since a kid I won't take no L's  
Learned most from what I lost  
So I take those fails  
I kept moving down streets where I used to get dissed  
They try to take shots but they usually miss  
I never forgot where I came from  
I'm straight off the block with the rain drum  
I probably got socked once or twice you lose  
No ice  
So I never got rocked for my jewels  
And that's life  
I probably paid the price in other ways  
In other words  
Another bird  
Another day  
I'm trying to get away clean  
I'm trying to get by at home and on my getaway team  
I'm the Taylor and nobody's not suitable  
I'm here to tell everybody that they're beautiful

So where we going from here...

The first day in a while that I woke up out the right side of bed  
It's not my choice  
I decided instead  
It's not my voice that I'm needing to trust  
When it's saying the wrong thing  
And it's speaking too much  
I don't  
Over discuss  
I'm not one for confrontation  
Complications  
And drawn out conversations  
Give me peace and let me be  
The rest'll see  
I'm still cheffing up the recipe  
It's a WIP until the day Ev's  
DOA and I see my G's  
I've been thinking  
What's the point of this life  
And start writing  
Pen to my paper in dark  
And spark lightning  
There's human in misfortune  
Beauty in distortion  
I run till my dreams burnt out  
That's where the torch ends  
I never dreamt that we'd go to where promoters flown us  
I've been gunning for my seed  
To see that owner bonus

So where we going from here...

Been a hell of a day  
Been a hell of a year

I'ma make it all count when I'm making routes  
I make it great  
Chase the clouds  
But ain't chasing clout  
I might trace my steps  
From the booth  
Back and forth  
To the drum machine  
I pace my reps  
Even when I'm off my square  
I keep it pushing  
I might be getting low  
But still I keep a little cushion  
For Ghost & Rae  
Rainy days  
I save my rest  
So I save a little extra  
And blaze my best

So where we going from here...  
Been a hell of a day  
Been a hell of a year
