Still on the go, down as I ever been  
Smoke a little dro with me, baby, I just wanna win  
(DJ Skee world premiere)  
I got a friend, good buddy, D to the E, yeah  
Layover  
Hey young world, yeah

When I was a teenager  
I had my GT bike and my Skypager  
And I made the switch, got my CW  
The Mike Buff model to the W  
Station 26, but first at the beach  
Watch how to skate the street  
I'm like, "Damn, now my day complete"  
For Pete, I had just looked at my watch and it's time to eat  
I stepped out the sand on my own two feet  
I've got my Vans on but they look like sneaks  
Yeah, I'm way too cheap  
But I'ma floss any day, beatbox anyway  
Beat don't knock, got my beatbox anyway  
Beat Street to Cali, poplock streets any day  
Same L.A. hat, got my custom fit and some kicks to match  
Much love to C-town, and peace to Sactown  
Miami to V-town to Oaktown  
We be in your town, as soon as the check clear  
Even though we vets here, might be our best year

Still on the go, down as I ever been  
Smoke a little dro with me, baby, I just wanna win  
(Come on) Worldwide AM  
Worldwide AM ('09, let's go)  
I could go to ten different places at one time  
Long as the sun shines, baby, I'll get mine

Born in West L.A., baby, came custom with the best and  
People down in Venice, my backyard was beach sand  
Hustlers, gangsters, and pimps  
I'm just a Reggie, don't trip  
Got me locked on the guap, we call it a grip  
Told me watch the twist, Gucci rock on my wrist  
When it's game time, baby, I'ma call you a bitch  
Then I bent the planet, and the skies are blue  
I was caught red-handed with a dime or two  
Much love to Dogtown, the leapin' frog town  
Your local block where they throw down  
We be in your town, we killer on big beats  
Defari and Evidence, they feel 'em on these streets  
I used to fiend for the diamonds and the new Benz  
Now I feel lucky for the fact I got some true friends  
Why you looking like you really wanna do me bad?  
I thought this shit was for the girls and black Jag?

Still on the go, down as I ever been
