Over Him

Evie Irie

I don't care what you heard, I say "Good luck" to her
He's not what I'm thinking of, two words, self love
He's already gone, I'm already moving on
He's already ex and I'm onto the next
I'm already living my best life, that's the fantasy
Now you wanna act like it's you who took him from me
Girl, you should've seen his face when I told him to leave
I already had my fun, I'm done, so sister please

I cried no tears, got my heels and called my friends
I had the time of my life getting over him
Took me to heaven, to hell, I'm back again
I had the time of my life getting over him

I'm out every night, glass up 'til I'm full
Find a stupid metaphor, write it on a bathroom wall
Make, make-out memories, I'm finally feeling zen
Starting something new, feels like the e-e-end

I cried no tears, got my heels and called my friends
I had the time of my life getting over him
Took me to heaven, to hell, I'm back again
I had the time of my life getting over him

I climbed 'til I got over him
I'm never falling back again
I climbed 'til I got over him
Got over, got over

Party on, party on
The party's better now he's gone
Party on, party on
The party's better now he's gone
Party on, party on
The party's better now he's gone
Party on, I'ma party on
The party's better now he's gone

I cried no tears, got my heels and called my friends
I had the time of my life getting over him
Took me to heaven, to hell, I'm back again
I had the time of my life getting over him

I climbed 'til I got over him
I'm never falling back again
I climbed 'til I got over him
Got over, got over
