

## Working Class Heroes

### Evil Conduct

Who were the ones who fought for freedom?  
Who were the ones who gave their lives?  
Maybe they didn't have to lose much  
But don't forget their kids and wives

Working class heroes  
They are the ones who helped to build this land  
Working class heroes  
They stay united always hand in hand  
Working class heroes  
With hearts of gold that always shine so bright  
Working class heroes  
They give you hope, will never leave you side

Is this the way to treat your heroes?  
Don't you have no respect at all?  
A government that never listens  
It seems it's riding for a fall

This ain't a country fit for heroes  
The government don't give a shit  
They're all so full of self importance  
Soon time will come that they'll admit

We need to honour them, we need to honour them  
We need to show that we'll remember them
