

A.O.P. / War Dance

Evildead

Through open water, and open skies
Stealth launching missiles as drones fly by
See falling soldiers hear battle cries
We're on this mission our future lies

Cannot retreat, there's no turning back
Pride of our Nation under attack
Send black ops, use Special Forces
Plagiarizing, the mass extortion
We sell them arms, and dirty bombs
Too hard to right so many wrongs
It's criminal with all shots fired
Hell on Earth, Murder for hire

With all the history, it's still a mystery
An abuse of power, until the darkest hour

War Dance - World's stage
The gantlet is thrown, the flag is raised, the battle is on
War Dance - zero chance
No lesson learned, reap what you sow, relive the past
War Dance - pay load
The Human Race, civilians pray with bitter rage

With all the history, it's still a mystery
An abuse of power, until the darkest hour

Lead - Albert

In dead of night we strike - What you gonna do?
Allied Forces are coming for you
You drew a line in the sand, super powers in command
WAR! Bad boys, loud voice, what you gonna do?
WAR! Allied fForces are coming for you
WAR! You drew a line in the sand
WAR! Super powers in command

Create catastrophe, all out blasphemy
An abuse of power, until the victims cower

Lead - Juan

Through open water, and open skies
There's blood and gore from sea to shore
The Stars and stripes, the perilous fight
Gods green Earth, nowhere in sight..
