

## Bathe In Fire

Evildead

Sit by the window my skin's turning ice cold  
Nothing I feel, or I see, this life has no meaning  
I'm silently screaming a burden I'll be on to thee,  
Deep in the darkness a human so heartless  
I'm scratching the surface or death...  
No pulse, or no vitals cliché suicidal  
I tighten the noose around my neck

Alter Life - No verse from the Bible.  
Alter Life - To kill I'm liable  
Alter Life - This burning desire  
Alter Life - I bathe in the fire

Life's slowly fading in a blood-pool I'm wading  
Treading the water so deep,  
Childhood memories regrets, and hard feelings  
Take me to my final sleep,  
These thoughts so abysmal ultimate sacrificial  
that's how my story ends,  
No now, and no future, No lies just truth here  
Whatever you sow you shall reap...

Alter Life - No verse from the Bible.  
Alter Life - To kill I'm liable  
Alter Life - This burning desire  
Alter Life - I bathe in the fire  
Alter Life - Feeling so empty  
Alter Life - Society rejects me  
Alter Life - A world that's so vile  
Alter Life - I bathe in the fire  
Life ends, as I bathe in the fire...
