

Greenhouse

Evildead

The Lord who has given the earth, and the sun
And the ozone protection between
Has taken away any care for creation
And banished us all into hell
The factories creating the acid pollution
Pump it to fill the sky
Ozone disintegrates; ultra violet rays your fate
In a man-made furnace we're condemned to die

Slowly your flesh starts to fry
There's no way to stop it don't try
Cancer crawls under your skin
It doesn't matter what we say
They're gonna do it anyway
No one calls it suicide
Fill the air with carbon monoxide

Sweating blood, foam at the mouth
Tongue is melted, CAN'T CRY OUT
Loss of air, asphyxiate
Temperature rises every day
Try to stop it there's no way
Skin cancer no answer
Dissipate the oxygen
Greenhouse keeps the heat in...

Dissolve the atmosphere - DISINTEGRATION
A holocaust begins - EXTERMINATION

Slowly your flesh starts to fry, we are condemned to die
This is what we deserve, in our own hell we burn..

SPREADING LIKE THE PLAGUE - NO HUMANS REMAIN
Dissolve the atmosphere - DISINTEGRATION
A holocaust begins - EXTERMINATION

Politician signing bills, unconscious of the men he kills
Radioactive radiation, slow infectious mutilation
Scientific prophecies, warning that nobody heeds
Civilization now bleeds

Lead - Albert

Slowly your flesh starts to fry
There's no way to stop it don't try
Cancer crawls under your skin

It doesn't matter what we say
They're gonna do it anyway
No one calls it suicide
Fill the air with carbon monoxide

Sweating blood, foam at the mouth
Tongue is melted, CAN'T CRY OUT
Loss of air, asphyxiate
Temperature rises every day
Try to stop it there's no way

Skin cancer no answer
Dissipate the oxygen
Greenhouse keeps the heat in...

Dissolve the atmosphere - DISINTEGRATION
A holocaust begins - EXTERMINATION

LIFE - it rots away
DIE - its time to pay
BURN - for your sins
IN HELL - nobody wins
