

## Napoleon Complex

Evildead

Mankind has this disease, inclined to live on its knees  
Praising gypsies and the likes of thieves  
create Gods to appease  
It's clear to all you're insane, nothing left to explain  
The World is asking, why? Condemn thousands to die

You're a power-mad schizophrenic  
You watch an action movie and think you're in it  
At war with ghosts and skeletons  
Your people die but your country wins  
Feed the public lies, as the spirit dies  
Submit to their every wish, you filthy communist

DIE IN HAVOC; unleash the hog of war  
Daddy's little bitch, gonna settle the score

You're a power-mad schizophrenic  
You watch an action movie and think you're in it  
At war with ghosts and skeletons  
Your people die but your country wins  
Feed the public lies, as the spirit dies  
Submit to their every wish, you filthy communist

DIE IN HAVOC unleash the hog of war,  
Sixty years ago, now you are more

Lead - Albert

And all the things you see, and all the things you feel  
And all your battered slaves, before you they kneel  
And everything you see, is shattered destiny  
We'll scorch your frenzied Earth, from sea to shining sea

You're an American Mussolini, can't accept a free society  
No one seems to comprehend; premonitions of the end  
So I guess we'll all just pretend  
To make America great again  
The history book will not omit  
What you've become of it
