

## Seed of Doubt

Evildead

Education, indoctrination  
Mind control just where they want you to be  
System failed, big plan derailed  
The sheep are woke now the blind can see  
Government autopsy reveals hypocrisy  
Liberal media plants the seed of doubt  
Condemn believers, silence truth seekers  
Corrupt regime being weeded out

Fascist beliefs, blood in the streets  
It's just a movement no one in harms way  
Protects and riots, majority silent  
The hell you bring on this judgement day?  
The constitution protecting our union  
One republic in the U.S.A.  
Our soldiers fought for this, won't live like communist  
Red. White and Blue 'til we are in our graves

Evil..Plants the Seed of Doubt
