

# Disorder

Evile

Intrusive thoughts begin  
The conflict emanates  
I try to doubt them  
But with strength they overweigh  
Cycle in motion  
Consternation sets the stage  
Can't trust my logic  
Peace of mind mutates to rage

Detonate, decimate  
Burning in the mind  
Dominate, devastate  
Until the end of time  
Marauder

Contemplate, disseminate  
Sickness making me blind  
Mediate and tolerate  
The madness left behind  
Disorder

Mind in disarray

Repeating falsehoods  
That persuade me to obey  
A maze of shame  
That I can leave but I must stay  
Impervious souls  
Eternally struggle to perceive  
Immortal judgement  
It refuses to leave

Detonate  
Decimate  
Dominate  
Devastate  
What I once thought  
No longer relevant, replaced

Can't uphold my fate  
Horrors lie in wait  
Is this how I feel?  
Too right to not be real  
Real  
It can't be real

Detonate, decimate  
Burning in the mind  
Dominate, devastate  
Until the end of time  
Marauder

Contemplate, disseminate  
Sickness making me blind  
Mediate and tolerate  
The madness left behind  
Disorder

Mind in disarray

What I once thought

No longer relevant, replaced
