

# Genocide

Evile

Drag me down  
Depths I dread  
Where I pass million dead  
Conflict wraps me in waves  
To show kings and slaves

Sinking deep as I find  
Just was lurks in there minds  
Let me go as I rise  
I hold no more life inside

I have seen through others eyes  
Such things I fear to see with mine  
Vision of a future denied  
Pull me away from genocide

Staring down the face of time  
Far I drift through the lines  
More I see morbid ways  
Down I cannot stay

Try and surface from the truth  
As it's pulling down on you  
All these demons we detest  
The demons are  
These demons are only men

I have seen through others eyes  
Such things I fear to see with mine  
Vision of a future denied  
Pull me away from genocide

I held my breath I was pulled below  
From the earth that I wanted for  
These hands that hold  
Press me to the past  
Are the same that bring  
Me back from the dead

I have seen through others eyes  
Such things I fear to see with mine  
Vision of a future denied  
Pull me away from genocide

Genocide  
Genocide  
Genocide  
Genocide

These demons are only men
