Imperator

Ex Deo

From the bowels of eternal fire
Risen deep from the womb of Hell
I breathe the power
Stricken from the poisonous tongue

Of filth and scum
Strangulate the earth of the purest blood
I laid in the eagle's nest surrounded by serpents

The days of silence are over
See the winds of devastation

Rein in the terror
Bring in the madness
My mother's blood forever entangled
Hear me now (Hear me now)
I never wanted to be king
See me now (See me now)
The reckoning for years to come

Imperator (Hail)
Hail me as the god of war
Imperator (Hail)
Seeded in thunder and light
Imperator (Hail)
The lust, the blood, the sun
Imperator (Hail)
Hail me as the tyrant god

Reign forever, antichrist
Worship forever, antichrist
Sing forever, antichrist
Elevate forever, antichrist

Whisper, whisper, whisper
The seeds of devastation

Rein in the terror
Bring in the madness
My mother's blood forever entangled
Hear them now (Hear them now)
Their cries of hatred made alive
See it now (See it now)
Engulf the word in fire

Imperator (Hail)
Hail me as the god of war
Imperator (Hail)
Seeded in thunder and light
Imperator (Hail)
The lust, the blood, the sun
Imperator (Hail)
Hail me as the tyrant god
