

over my dead body

Ex Habit

You said that we're over
And swore that you mean it
I buried my morals and partied like it's religion
Kept my composure, a pro at hiding my feelings
Cursed with poison of love
I'll never be giving you up

You know what I know
You roll what I roll
Miss being so close
To you

Baby
My recollection of us pains me
Left half of my heart out at that party
Got so used to the way that you touch me
Over my dead body

I called my friends over
And got a house for the weekend
Kissed girls for closure
Just to tell them that it hurts the way
You said that there's no way out
You said that I broke your heart
You said regret ain't enough
But baby that's all that I got

You know what I know
You roll what I roll
Miss being so close
To you

Baby
My recollection of us pains me
Left half of my heart out at that party
Got so used to the way that you touch me
Over my dead body

Over my dead body
Over my dead body
Over my dead body
Over my dead body
Over my dead body
Over my dead body
Over my dead body
Over my dead body

Over my dead body
Over my dead body
Over my dead body
Over my dead body
Over my dead body
Over my dead body
Over my dead body
Over my dead body

Oh maybe

One day you'll pretend that you don't hate me
Close your eyes and forget bout that party
Swear that you can forget how you loved me
Over my dead body

Oh maybe
One day you'll pretend that you don't hate me
Close your eyes and forget bout that party
Swear that you can forget how you loved me
Over my dead body
