

# PLEASE

Ex Habit

You want me to come but baby you won't let me stay  
Your friends do not know, so you call me only  
When it's late

Things that we do with each other don't ever change  
Using our bodies to numb the pain  
Fuck on the floor just to feel some way  
Say that it's over then go again

Lights out I'm all over ya  
So fucked up from the way you touch  
All mine so don't play it tough  
Before I'm in and I'm begging like

Please  
Get down on your knees  
Said you want it like this  
Now that I'm in your sheets  
I'll make you weak, get you begging like  
Please  
Get down on your knees  
Said you want it like this  
Now that I'm in your sheets  
I'll make you weak, get you begging like

You say that you're lost but baby I won't let you down  
We won't tell anyone how you scream when  
They're not around

Lies that we tell to our friends don't ever change  
Tired of saying we're not ok  
Fucking like whores every single day  
Can't get enough when you scream my name

Lights out I'm all over ya  
So fucked up from the way you touch  
All mine so don't play it tough  
Before I'm in and I'm begging like

Please  
Get down on your knees  
Said you want it like this  
Now that I'm in your sheets  
I'll make you weak, get you begging like  
Please  
Get down on your knees  
Said you want it like this  
Now that I'm in your sheets  
I'll make you weak, get you begging like

I'll make you weak, get you begging like  
Please  
Get you begging like
