

# Anything

## Example

This could be the very last kiss,  
From my lil' Miss Perfect,  
Certainly I savor that,  
Funny how the money pays for stuff but doesn't pay for that,  
Special little moment,  
I know what I'm after,  
Don't know what I'm aiming at,  
Didn't mind the baby chat (no, no),  
Or giving you my name and that,  
The apple of my eye,  
You puzzle me sometimes,  
I need to find the apple guy and maybe he can make an act  
Feeling that, maybe we should take another roll of the dice

Can't believe we both let it fade away,  
I wanna stay for another day,  
If you wanna save us, give me a signal,  
Anything will do  
Can't believe we both let it fade away,  
I wanna stay for another day,  
If you wanna save us, give me a signal,  
Anything will do

I used to sleep like a baby,  
Now I lay awake at night thinking 'bout my lady,  
Maybe I should take a bite, maybe I should take a plunge,  
Maybe I should cancel all my flights,  
Take a right turn, left is just a place to run,  
From my demons, no one understands me,  
Better than my girl, 'cept my family,  
And we hanging by a thread,  
I go to turn my head,  
Think twice, maybe,  
Take another roll of the dice

Can't believe we both let it fade away,  
I wanna stay for another day,  
If you wanna save us, give me a signal,  
Anything will do  
Can't believe we both let it fade away,  
I wanna stay for another day,  
If you wanna save us, give me a signal,  
Anything will do

I've got two main worries in my mind,  
One - will I ever find another girl as beautiful and kind?  
Two - and if I say goodbye will I mind if I saw you in the streets with other guys,  
I try, I really do tell myself,  
Mate, this is 50-50, this is give and take,  
But I just make mistakes, this is 70-30,  
Christ, I think we could be running out of rolls of the dice,

Can't believe we both let it fade away,  
I wanna stay for another day,  
If you wanna save us, give me a signal,  
Anything will do

Can't believe we both let it fade away,  
I wanna stay for another day,  
If you wanna save us, give me a signal,  
Anything will do

I never, ever, ever, ever, wanna forget  
I never, ever, ever, ever, wanna forget  
I never, ever, ever, ever, wanna forget  
I'm gonna keep the ticket start from when we first met,  
I never, ever, ever, ever, wanna forget  
I never, ever, ever, ever, wanna forget  
I never, ever, ever, ever, wanna forget  
I'm gonna keep the ticket start from when we first met

Can't believe we both let it fade away,  
I wanna stay for another day,  
If you wanna save us, give me a signal,  
Anything will do  
Can't believe we both let it fade away,  
I wanna stay for another day,  
If you wanna save us, give me a signal,  
Anything will do

Yeah, anything will do  
Anything will do  
I'll do anything for you  
Anything will do  
It's the truth, it's the truth, it's the truth  
Anything will do, anything will do  
I'll do anything for you  
Just give me the signal
