Blood From a Stone

I don't want to (12x)

Impossibile's possible
I know 'cause I lost it all
I know the price of my ego's lethal
I still got a heart of you

You fell like nobody's catching you
Start acting irrational
Stop taking my lead I'm a fiend
And I feel like I need to survive it all

Impossibile's possible
It feels like they're watching you
I know the price of my ego's lethal
I still got a heart of you
I still got a heart of you
I still got a heart of you
Impossibile's possible

Living in a safe house never existed
Too many lips to kiss
Cooking at a stake house
Should've persisted
Makes you wanna slit your wrist
So you clutch your fist
Like a mentalist and terabit
Shit I mentioned this
Coalition formed and a she'd of blue
Never true nobody gave a shit
Listen to all my parade sticking on a masquerade
Sitting in a waste of space
While sipping on a case of basic tasteless lemonade
Kiss your life away, wish your life away
What's the life he said time's a hard grenade
Hyperventilate, perpetuate
Never gonna make the tray

Searching for an El Dorado
Hiding from a false provoker
Feeling like we won the lotto
Searching for an El Dorado
Hiding from a false provoker
Feeling like we won the lotto

Impossibile's possible
It feels like they're watching you

Blood, blood from a stone
And love isn't home
Can you send to my tone
Getting too means like getting
Blood from a stone
I used to get in the zone
I had to leave it alone
We get in the long long nights having fights
And get some blood from a stone

Searching for an El Dorado
Hiding from a false provoker
Feeling like we won the lotto

Blood, blood from a stone
And love isn't home
Can you send to my tone
Getting too means like getting
Blood from a stone
I used to get in the zone
I had to leave it alone
We get in the long long nights having fights
And get some blood from a stone

Impossible's possible
I know 'cause I lost it all
I know the price of my ego's lethal
I still got a heart of you
I still got a heart of you
I still got a heart of you
Impossible's possible
I've got the heart
