

Eutopia (Fade Away)

Example

Standing at the shore
Something in the distance
Questioning my existence
Life before my promises were glassing
Now I'm questioning your resistance

Don't forget who you are
Don't forget you're a star
Find Eutopia
It's never far

Don't fade away, fade away
Don't fade away,
Last on a rainy day, rainy way
Don't fade away
We will last on a rainy day

Who's this at my door
Face is full of mystery
Questioning your persistence
Like before you never even listened
The grudges of what you've been missing

Don't forget who you are
Don't forget you're a star
I found Eutopia
It's never far

Don't fade away, fade away
Don't fade away,
Last on a rainy day, rainy way
Don't fade away
We will last on a rainy day

What you never done before
It can set you on a way
Maybe we can even meet along the way
Show you heaven through the door
Leave the work and start to play
Maybe we can even meet along the way

Find Eutopia
It's never far

Don't fade away, fade away
Don't fade away,
Last on a rainy day, rainy way
Don't fade away
We will last on a rainy day

It's never far
It's never far
