

Man Alive

Excalion

I've seen the highlands and I have been low
I've been to places you'd rather not know
A rock and a hard place have nothing on me
I've been there and set myself free

The game has been won, now I run up the score
And then I will come back for more and more

I'm a man alive
My soul on overdrive
Privateer on the run
Man alive
I'm here and I revive
Hold on, I'm not yet done

I crossed many lines, now I wear 'em on my face
My eyes saw bright nights and permafrost days
I win by heads and I win by my tails
My head's a storehouse of tales

The game has been won, now I run up the score
And then I will come back for more and more

I'm a man alive
My soul on overdrive
Privateer on the run
Man alive
I'm here and I revive
Hold on, I'm not yet done

I'm a man alive
My soul on overdrive
Privateer on the run
Man alive
I'm here and I revive
Hold on, I'm not yet done

I'm a man alive
My soul on overdrive
Privateer on the run
Man alive
I'm here and I revive
Hold on, I'm not yet done!
