

Oxygen

Excision

Wake up sweating in the summer lying next to you
Feel you in the covers on my like a new tattoo
Hope I, wish I knew how to start up time
Before we realize we're a scene from a movie without a happy ending

It's like we're swimming in the deep end
Breath away from drowning
No way, we ain't going down
'Cause we're burning in at both ends
Heating up in your bed
We're ignoring all our doubts
Do you fear the pain that we'll face one day?
Swimming in the deep end
Breath away from drowning
Kiss me like I'm oxygen

Kiss me like I'm oxygen
Kiss me like I'm oxygen

So good we were together
It's kinda hard to believe it
And when you say forever, do you even mean it?
Hope I, wish I knew how to start up time
Before we realize we're a scene from a movie without a happy ending

It's like we're swimming in the deep end
Breath away from drowning
No way, we ain't going down
'Cause we're burning in at both ends
Heating up in your bed
We're ignoring all our doubts
And do you fear the pain that we'll face one day?
Swimming in the deep end
Breath away from drowning
Kiss me like I'm oxygen

Like I'm oxygen x4

Do you fear the pain that we'll face one day?
Swimming in the deep end
Breath away from drowning
Kiss me like I'm oxygen

Kiss me like I'm oxygen
Kiss me like I'm oxygen
