Red Rum

Execution Day

You left me black and blue and broken in two
You say that you need me but I don't need you
I'd give, give, give you anything so please don't let me down
And I'll be waiting here forever hoping for you and I
Too bad you never cared I know you never cared
Too bad you never cared I know you never cared

And I can't wait to see the moment
That you wreck your life

And I can't wait to see the day
Your smile slowly starts to fade
Begging me to stay
You know you'll never change
How did we get here in the first place
And why no matter what I do it's like I can't run away from you
This epic tale that we've been through isn't over
But will it ever end

Broken by the hearts of fallen dreams
I laid the whole world at your feet I gave, gave, gave you everything
See what our lives could have been
But yes it's true
You took the easy way out you had a different view
But I stayed true
I didn't back out I always said I'd love you

And I can't wait to see the moment
That you wreck your life

And I can't wait to see the day
Your smile slowly starts to fade
Begging me to stay
You know you'll never change
How did we get here in the first place
And why no matter what I do it's like I can't run away from you
This epic tale that we've been through isn't over

But this all must come to an end
Or you'll pay the price for what you did before
I'll send your body to the ocean floor

This day marks the end of our futures
This day marks the end of our futures

I wish you could feel how, I feel now
I hope this pain will find you somehow

And I can't wait to see the day
Your smile slowly starts to fade
Begging me to stay
You know you'll never change
How did we get here in the first place
And why no matter what I do it's like I can't run away from you
This epic tale that we've been through isn't over

Woh oh ohoh

Isn't over
Woh oh ohoh
