

SUFFOCATE

Execution Day

Suffocate!

I've been lost here in this nightmare
I'm paranoid with no idea where I am
Searching for the cure to my darkest chapter
Look into my eyes
What do you see inside me?
They'll never stop until you fade away

I'm sick and tired of living in my head
Feels like I'm drowning
Cause everything I hate, makes me suffocate
(Whoa)
Oh god is this my fate? I'm everything I hate
Everything I hate

I've had years to bury my guilt
But still I feel the pain of everyone I've wronged
Evading all the voices
(Again and again)
Look into these eyes
How will you feel when you find me?

You got me wrong
You got me wrong
They'll never stop until you fade away

I'm sick and tired of living in my head
Feels like I'm drowning
Cause everything I hate, makes me suffocate
(Whoa)
Oh god is this my fate?
I'm everything I

I'm sick and tired of living in my head
(Sick and tired of living in my head)
Cause every thing I hate wants me dead
(Everything I hate wants me dead)
I'm sick and tired of living in my head
Cause everything I hate wants me
Dead
Oh god is this my fate I'm everything I hate
Oh god is this my fate I'm everything I hate
They'll never stop until you fade away

I'm sick and tired of living in my head
Feels like I'm drowning
Cause everything I hate, makes me suffocate
(Whoa)
Oh god is this my fate? I'm everything I hate
It makes me suffocate
I fight for my last breath it's all that I have left
If I could find a way through the darkness
Will I survive the war tonight?
Suffocate
