

Divide and Conquer

Exhorder

Should have drowned in the pool, but it was too shallow
Swimming on in a puddle, that's how low
Holy gods and monsters, we beg to follow
Need to know who has stopped and who's full go

Divide and conquer you
Is there nothing we can do?
Got you on a leash, locked down

Second-guessed on a vote that you cast in protest
Better keep it closer to the vest
Separation of church and state so clouded
Wonder now if God should stay or go

Divide and conquer you
Now we wonder who is who
Feel the sharpest teeth while the world bleeds
Divide and conquer you
Is there nothing we can do?
Got you on a leash, locked down

Divide and conquer you
Now we wonder who is who
Feel the sharpest teeth while the world bleeds
Divide and conquer you
Is there nothing we can do?
Got you on a leash, locked down
