

Sedition

Exhorder

Welcome to the shake up, ladies and gentlemen!
Disorder made to order, at it again
No stranger to deceit, liberate the weak
Somebody just upset the apple cart

Rise, waken, train
Switched on, blitzkrieg, end

Coup d'etat is just a nice way
Of saying revolution's on
When sedition takes the crown

They'll try to tell you how to vote
Then tax you till you're broke
For their pensions as your tensions grow
To them we're obsolete
Obedient sheep
Dish up the plates and serve the crow

Rise, waken, train
Switched on, blitzkrieg, end

Coup d'etat is just a nice way
Of saying revolution's on
Mercy won't be found
When sedition takes the crown

Welcome to the riot, street rats and mobs
Disorder made to order, beckon the call
No longer their disease, we're taking to the streets
Cities are burning as they fall
'Cause the revolution's on

Rise, waken, train
Switched on, blitzkrieg, end

Coup d'etat is just a nice way
Of saying revolution's on
Better run for shelter
Keep your head down
When sedition takes the crown
