

Carbonized

Exhumed

Inhale - columns of noisome gas
Exhale - a putrid gust of burning ash
Expectorate - foul-tasting viscous grime
Regurgitate - a blackened mass of grue and chyme

Asphyxiating rush
Breathe in the rancid slush
Grey matter turns to sludge

Trachea carbonized
Sanity vaporized
Cranium cauterized
You have been carbonized

Ignite - another scorching, violent blast
Pyrite - carbonizes this putrid (h)ash
Cadaverized - the flinty vapors you imbibe
Necrotized - deadly intoxicants of the demised

Asphyxiating rush
Breathe in the rancid slush
Grey matter turns to sludge
